ACT Churchill Fellows' Annual Dinner

On 31 August the ACT Churchill Fellows Association held their annual dinner, with over 100 current and past Fellows, National Churchill Office staff, family members, friends and supporters attending to acknowledge and welcome seven new Churchill Fellows for 2011. ACT Churchill Fellows Association President Helen Walker, CEO Paul Tys, and each of the new Fellows addressed the audience, with each highlighting the diversity of Fellows' endeavours.

A ceremony was held prior to the dinner, held for the first time this year at the Commonwealth Club, at which new Fellows were congratulated on their achievement by Her Excellency, the Governor-General of Australia, Ms Quentin Bryce. Seven returned Fellows also received medallions signaling the completion of their Fellowships from the Governor-General.

The raffle held on the night was also a success, with a number of previous and current Fellows kindly donating prizes for the evening. Many thanks to David Pang, Berendina de Ruyter, Will Fargher, Jane Crick, AnneMarie White, Holly Northam, Peter Minson, Wilma Davidson and Peter Halsey for their generosity.

Passing of 1971 Churchill Fellow Allen Dudley Campbell

Prominent ACT resident and 1971 Churchill Fellow Allen Dudley Campbell sadly passed away on 19 September. Allen's Churchill Fellowship experience enabled a successful career in Earth Sciences at the Australian National University. He had previously worked at Woomera, and had assisted the research of Sir Mark Oliphant.

The ACT Churchill Fellows' Association wishes to express sincere condolences to Allen's family and friends.

Mick marches on – by Paul Tys CEO

A long-serving member of the ACT Regional Selection Committee, Dr Milton (Mick) March MBE, recently retired from the Committee after 36 years of service. Mick himself is a 1969 ACT Churchill Fellow who travelled overseas for 6 months visiting the USA, the UK and Canada to observe the teaching of new courses of mathematics to become acquainted with syllabus content and to collect data on the implementation of new mathematics courses.

At his Fellowship interview it was recorded that ‘whilst Mr March is not a mathematical genius, he is a well-qualified, experienced and effective Master in charge of mathematics at Telopea Park High School’. Mick went on to become the Headmaster at Narrabundah College and assisted in pioneering the introduction of the ACT college system in the 1970s.

During his 36 years on the ACT Selection Committee, Mick was involved in the selection of over 160 ACT Churchill Fellows. He always asked the applicants penetrating questions and brought a touch of humour to Committee proceedings. Without fail he would ask the applicant why they needed a Churchill Fellowship!

Mick is an exemplary Churchill Fellow and the Churchill Trust is very grateful for his tireless record of committed service. The Trust extends to Mick and his wife Pauline all the best for the future.
